SLIMLINE TOILET CUBICLES

CAPCO Slimline Toilet Cubicles

Supply and install CAPCO Slimline Toilet Cubicles manufactured from 16mm melamine faced chipboard finished with 22 x 22mm natural anodised aluminium surround channels fitted to all component parts comprising end pilasters size 1,982m x 115mm, intermediate pilasters 1,982m x 230mm, doors 1,762m x 762mm and partitions 1,829m x 1,524m (sizes are variable) including 25 x 26mm natural anodised receiving channels to walls to accept panels and take up discrepancies in masonry walls. Cubicles are stabilised with 25 x 25mm natural anodised aluminium square transoms across pilasters and returning to wall at end partitions. Cubicles complete with all necessary ironmongery including special Indicator bolt and keep, natural anodised aluminium hinges, natural anodised aluminium hat and coat hooks with rubber buffers and thief-proof toilet roll holders. Pilasters and partitions are secured to floor and walls with 5/6/36 wall anchors.
